

LAUNCH OF THE INTERNATIONAL ORANG-UTAN AWARENESS WEEK. THANK YOU TO ALL STAFF AND STUDENTS WHO WERE INVOLVED!

3D Mural Design Project

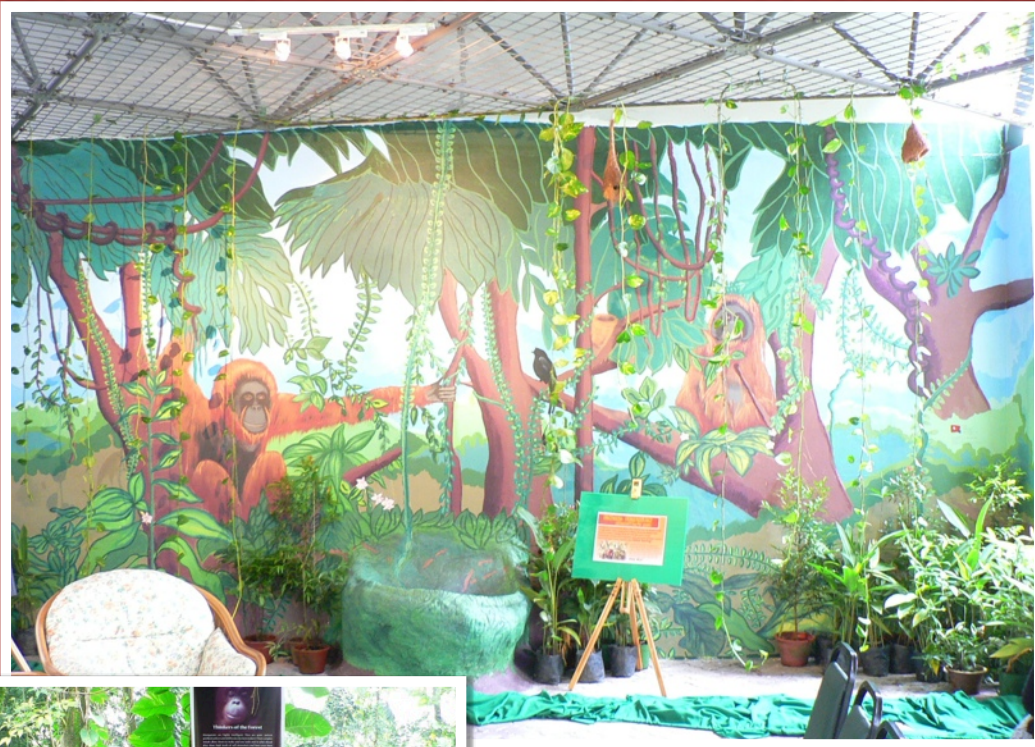

In-conjunction with the International Orang-Utan awareness week, The Design School at Taylor's took on a project in collaboration with W-O-X, to design and paint a 3D Mural at the Ape Centre, located in Zoo Negara. It was part of the semester one students, 2 Dimensional Design and Creative Thinking Skills final design project. This project would be a first of many future collaborations with W-O-X (Way Out Experiences). Apart from learning how

to deal with industry project briefs, the students realised that design makes a difference in wildlife protection and society. Apart from the mural, the students also raised RM700 Ringgit by selling postcards which they designed and some merchandise which goes to W-O-X Orang-Utan project.
